

## Remote Learning

### Key Stage Two

## Pupil Information

### **What should I do if I need to self isolate and I am not able to attend school?**

Your teacher will set you tasks through Seesaw and will review your work and send you messages after school each day. It is important that you log on to Seesaw each morning to check what you are expected to do each day. You must remember to complete the tasks and upload your learning to Seesaw so that your teacher can give you feedback by the end of the school day.

Your teacher may also direct you to other platforms such as Reading Plus, Epic, Spelling Shed, White Rose Maths, Maths Shed or other web-based learning sites. It is important that you make sure that you access learning by following the given links or by logging on to other learning platforms. Your teacher will make sure that you have all of your necessary log on details and passcodes during the period that you are not able to attend.

### **If the school closes what is expected of me each day?**

Your teacher will set you tasks daily through Seesaw and will meet you each morning and afternoon in a Zoom call. It is important that you log on to Seesaw each morning to check what you are expected to do each day and follow the link your teacher gives you to the Zoom meeting at the right time. You must remember to complete the tasks and upload your learning to Seesaw so that your teacher can give you feedback by the end of the school day.

Your teacher may also direct you to other platforms such as Reading Plus, Epic, Spelling Shed, White Rose Maths, Maths Shed or other web-based learning sites. It is important that you make sure that you access learning by following the given links or by logging on to other learning platforms. Your teacher will make sure that you have all of your necessary log on details and passcodes during the period that you are not able to attend.

## **What should I do if I am ill and too poorly to complete any home learning?**

If you are too ill to complete any home learning, then a parent or carer should contact school or your teacher by telephone, or email to let us know that you are too unwell to complete any home learning. This is really important because if you do not complete your home learning, the school will treat this as non-attendance and we will contact your parents and carers to find out why you are not completing your school work. Remember, when school is closed because of national lockdown you are fit and well, you are not on holiday and you should be working through all of your home learning activities carefully.

## **When will my teacher respond to my home learning?**

If the whole school is closed, then your teacher will be working from home. In this case, your teacher will respond to your learning during the school day. If you have a problem you can send your teacher a message or talk to them in the Zoom meetings. Your teacher will give you instructions for your learning on Seesaw and will give you feedback that is written or it may be verbal using the microphone tool.

## **What should I do if I am having trouble accessing the internet or a suitable device to work on?**

In the case of internet failure, it is important that your parent or carer lets someone at school know as soon as possible. As soon as your connectivity problems are resolved, it is important that you log on to Seesaw and upload photographs of the work that you have completed. We may also be able to help you with the temporary loan of a Wi-Fi type device.

If you are having trouble accessing a suitable device to work on such as a laptop or tablet, it is important that your parent or carer contacts school and explains the situation. School may be in a position to offer you a temporary loan of some equipment to help you.

## **What should I do if I can't access Seesaw for some reason?**

If your Seesaw code expires or fails for some unknown reason, a parent or carer should contact school and let your teacher know that you are having a problem logging on to Seesaw. Your teacher will try to issue a new Seesaw passcode as soon as possible. In the meantime, it is important that you log on to other learning platforms such as Reading Plus, Epic, Spelling Shed and Maths Shed and ensure that you continue with your home learning.

# HOME LEARNING

## What should I do if I find it difficult to organise myself at home?

Self-organisation and self-discipline may be a challenge for you when you are learning from home. There are lots of distractions in the home (such as TV, video games and mobile devices) which could interfere with your home learning.

When you are working from home, it is important that you remember that you are not on holiday and that you are still at school. As a result, it is really important that you have a daily

routine.

Below are some tips to help you:

1. Get up and get dressed at the same time as you would on any normal school day.
2. Make sure that you eat breakfast and have a drink of milk, water or juice- you cannot concentrate on an empty stomach!
3. Find somewhere quiet to work and make sure that the TV is switched off.
4. Log on to Seesaw and look carefully at the tasks that you need to complete for the day and follow the timetable.
5. Attend your class Zoom meeting.
6. Give yourself breaks! It is important that you do not try to rush through your home learning and complete it all in one go. If you do this, it is likely that you will make mistakes and the work will be sent back to you once your teacher has looked at it.
7. Make sure that after a task is complete and submitted to Seesaw, you have a break and relax for a short time. If you do this, you are more likely to feel refreshed and able to concentrate better on the next task.
8. Make sure that you stop for lunch so that you break up your day.
9. Have regular drinks of water to keep your brain hydrated!
10. Try to exercise as much as possible- perhaps in the garden or in the house. Fresh air really helps!
11. Make sure that you have uploaded all of your learning to Seesaw before the end of the usual school day at 3.00pm.
12. After all of this, you can relax and have some leisure time!
